

Autumn Term 1 Caterpillar Nursery Learning Focus

What a wonderful start to our Autumn term! We have been busy welcoming new children into nursery. We are very proud of the way they have settled in. The returning children have been helping the new children, by showing them how to follow Caterpillar Nursery routines and by showing them how to access the many wonderful activities we have for them to take part in.

We are discovering lots about Autumn and all of the different changes that it brings. We have collected natural objects such as, leaves, twigs and pinecones which the children have shown interest in exploring and using in their play activities.

We have many different resources to explore at nursery and the children are showing such curiosity and independence as they discover new activities to engage in.

The children have shown particular interest in puzzles, construction and expressive art and design. We have a variety of resources to explore that challenge the children's fine motor skills and levels of concentration.

At circle time we have been enjoying listening to stories and singing rhymes together. The children are doing so well at learning one another's names as we sing the 'hello song'

'Own babies' is our story of the moment. You can share this story together via the link below.
